[Overview]

This service is a new service where donations and online video seminars are added to contracts such as lease contracts and installment sales contracts.

On their own initiative, customers add the equivalent of 0.1% of the property cost to the usual rental fee as a contribution, and in return, our group will contribute the same amount (the matching gift program). Therefore, the equivalent of a total of 0.2% of the rental fee is donated to any of the NPO organization shown above, which can be chosen freely by customers according to their ideology.

The video content of the online video seminars is for SDGs-related training programs and was created by Mizuho Research & Technologies, Ltd.
